Qualifying Format: (10) lap Heat Race(s). No more than (10) cars per heat.
(12) lap Consolation Race(s)
Handicapping: Plus/Minus. Positions to handicap announced at event.
Driver Introductions: In car rolling.

TECHNICAL RULES

This event will be governed by the NHSTRA Modified rulebook and the information contained here.

TIRE ALLOTMENT

A registered car may purchase (2) race tires for this event. All NHSTRA tire rules are in effect.

RACE PROCEDURES

Spotters:

1. Each team must have a spotter, with radio communication to the driver, present in the Pit Grandstand when their car is on track for the race.
2. Spotters must be monitoring the race control frequency whenever their car is on the track. Frequency is 469.5000

Starts & Restarts:

1. The initial start and all subsequent restarts will take place within the box. The leader must fire first. If the leader fails to fire by the end of the box, the starter will restart the race.
2. Lapped cars will be aligned at the tail end of the field in order of running on all restarts.

Pitting:

1. Teams will pit behind their haulers.
2. Refueling is not permitted at any point during the race.
3. Only bents and flats, approved by a NHSTRA inspector, may be changed.
4. Pit cars can return to the racetrack - in Turn 3 - once the lineup is set.

Causing Caution Periods:

1. Any driver causing three caution periods will be parked for the remainder of the event.

NEXT JDV PRODUCTIONS NHSTRA MOD EVENT:

Saturday, September 9, at Monadnock Speedway (50 laps, \$10,000+ in posted awards)
